

# WINNERS AT NEW ORLEANS.

Mudlarks Weigh for Going to Their Liking.

(Special to The Evening World.)  
RACE TRACK, NEW ORLEANS, Dec. 20.—The fields to-day were made up strictly of horses with a liking for heavy going and the class represented was very mediocre. The track was heavy and holding, the atmosphere raw and the attendance slightly reduced.

The handicap at six furlongs presented a very interesting betting proposition, six starters having a reputation as first-class mudders.

Jockey Troxier and his brother John, who were ruled off by Capt. Hes two years ago, have again made application for reinstatement. Jockey Troxier was one of the best light-weight riders in the West at the time and there was great rivalry between him and O'Connor for the premiership at the meeting.

The act which brought about Troxier's suspension was extracting hold of Alex's horse in a stake race to prevent him from winning. The steamer had been a victim of the hold that he pulled Ben Ronald a few days before.

Secretary Clark wrote me to-day that the only condition on which he would reinstate the jockeys is that they do no jinxing.

Troxier has brought every influence to bear to again be put in good standing.

Gen. Castleman, of Kentucky, espoused his cause without avail.

Entries in Big Race Include Many Sprinters and the Majority of Competitors in Last Week's Six-Day Grind.

The saucer-shaped track at Madison Square Garden is in for another scorcher to-night. Over the same course that was circled many thousands of times by the big-wheel peddlers, a score of lively riders will pedal for twenty-five miles in an endeavor to make a new time record for the distance as well as to add to their bank accounts.

In addition to the regular prizes to the first, second, and third men at the end of the race, additional prizes will be given to the winner of the most number of laps. Thus the tiresome "leaving" will be done away with.

Foreigners in the Hunt.

The list of entries is one to arouse interest in the heart of the contest cycling fan.

There is Archie McEachern, as good a plunger as ever circled a track. Then Gougoz, of France, whose loss of the big race was due to an accident, is slated to start, and his partner, the fleet Simar, is in for it. All the foreigners who came over here to show how much speedier they were than America's best will go at the crack of the pistol.

CRUMPACKER ASSAULTS SIXTH.

Large Percentage of the Voters Disfranchised He Claims.

WASHINGTON, Dec. 20.—Representative Hopkins, Chairman of the Committee on Census, to-day filed in the House the majority report on the reapportionment bill reported by his committee fixing the membership of the House for the next decade at 435.

Representative Burleigh of Maine filed a minority report signed by six members in favor of a House bill composed of 26 members, and Representative Crumacker, of Indiana, who signed the Burleigh report also submitted an independent report in favor of reducing the representation in the Southern States to the extent of the abridgment of the suffrage.

His independent report favors a House to be composed of 51 members.

Mr. Crumacker supported his amendment, saying that a large percentage of Southern voters were disfranchised and that a re-apportionment of his plan was proper.
